**Subject:** Questions

Mr. Porter:

On Feb 14, 2018 did you come on the school intercom and direct all of the students and school staff to evacuate the Stoneman Douglas High School after a False Fire alarm with only 20 minutes left in the school day?

Did you on Feb 14, 2018 come on the school intercom and call for a CODE RED?

Who directed you to make those intercom announcement or was it just your decision?

Who provided the CODE RED training little over three weeks ago to your entire faculty?

This is very important me since I was the School safety Consultant in 2006-2008 in helping develop your School Emergency Procedures such as CODE RED.

Please respond since I was a former school administrator .

Thanks

Wolfgang W Halbig
