Subject: Florida Freedom of Information Public Record request.

Mrs. Bell:

This is another formal Florida Freedom of Information Public Record requests since the Coral Springs Fire Department states they have NO such records when inspection the Broward County Schools which is ver concerning to me.

Where is the Accountability for Fire and Safety?

You are only going to let the school district to keep records. What if they get lost?

So with that I am requesting the comprehensive Fire and safety Inspection for the following years for Stoneman Douglas High School.

1. The complete inspection report for 2015-2016 and signed of the the Coral Springs fire Inspector
2. The complete inspection report for 2016-2017 and signed of the the Coral Springs fire Inspector
3. The complete inspection report for 2017-2018 and signed of the the Coral Springs fire Inspector
